

HACC Day Centre

Provides social support to those who are frail, aged, have a disability, are homeless, or socially isolated.

Social Activities and a lunchtime meal are provided daily. Eligibility is determined through the completion of an assessment.

Person Directed Planning

We can assist individuals to think about the things they want to do in their lives and what supports they might need to make these things happen.

Individuals are assisted to think about what supports they require from friends and family, services offered to the general community or from disability specific services.

MASP provides a range of support services for people with disabilities and their families. The support services focus on assisting the person with a disability and their families to maintain a healthy relationship whilst encouraging the involvement in community activities by developing appropriate social skills.

If you have any further questions or would like to see if you are eligible to attend any of these programs, please contact the MASP Disability Team.

OVERVIEW OF
MASP DISABILITY SERVICES

Independent Living Program

Targeted at individuals with a disability who have displayed necessary maturity and expressed their wish to become more independent.

It focuses on supporting the person to gain the necessary skills to live in the community independently, to form positive peer relationships and to provide problem-solving strategies to manage difficult situations.

Social Group/Holiday Program

The aim of our social group program is to enhance social skills, provide positive role modelling and implement behaviour modification strategies. It provides attendees with a fun social outing whilst also giving carers much needed respite. This is delivered through after school programs and holiday programs.

Individual Support Packages

We provide a flexible range of support and services in the home or community to assist an individual to live as independently as possible. This may include but not limited to, grocery shopping, cooking, accessing community events, travel assistance, budgeting, finding a job or volunteer work, general health & hygiene.

Mentoring 1:1

MASP will work with clients, families and other services to help develop behaviours that are required to integrate positively with peers, and are socially acceptable.

DAY PROGRAM - Just Redgum

The day program focusses on the development of a positive work ethic in the young people, whilst giving them an opportunity to gain skills that could lead them towards gaining full time supported employment in the community.

Just Redgum involves the manufacture and retail sale of a range of Redgum furniture and home wares. The skills obtained are consistent with general woodworking, whilst also providing social support in the community.
